Francisco Toyos

SENIOR FULL STACK ENGINEER

Senior Full Stack Engineer with 7 years of experience developing enterprise applications and scalable digital products. Experienced in leading frontend initiatives, collaborating with multidisciplinary teams, and delivering solutions for banking, ERP, pharma, and e-commerce industries. Strong focus on product quality, scalability, and business-oriented development within Agile environments.

Experience

Jul 2025 - Present

Santander Consumer | Full-time

Senior Frontend Engineer

Worked within the Santander Consumer vertical, developing internal platforms and digital solutions for insurance, assistance services, and banking systems. Focused on building scalable and high-performance frontend applications, integrating APIs, optimizing performance, and collaborating with cross-functional teams in agile environments.

Technologies: React, Next.js, TypeScript, Node.js, AWS, REST APIs, Git, CI/CD.

Dec 2021 - Present

Freelance

Full stack Developer

Development of custom web solutions for different clients, including eCommerce platforms, corporate websites, appointment scheduling systems, and tailor-made applications. Responsible for both frontend and backend development, corrective and preventive maintenance, performance optimization, and ongoing technical support.

Main Technologies: Node.js, JavaScript, SQL/NoSQL databases, and modern web development tools.

May 2023 - May 2026

Extendeal | Full-time

Senior Frontend Developer

Worked on the development and evolution of a SaaS platform for pharmacies, focused on optimizing purchasing workflows, supplier integrations, order management, and analytics tools. Led a frontend team of 5 engineers, coordinating technical initiatives, code quality, and scalable solution delivery. Also participated in continuous improvement initiatives, contributing to platform scalability, development standards, and internal tooling.

Main responsibilities:

- Frontend team leadership and technical mentoring
- Development of scalable frontend applications and business workflows
- Integration with backend services and third-party APIs
- Performance optimization and UI/UX improvements
- Collaboration with product, design, and backend teams in agile environments
- Participation in CI/CD processes and continuous improvement initiatives

Technologies: React, Next.js, TypeScript, RSuite, AWS, Jenkins, REST APIs, Git, CI/CD.

Jul 2024 - Oct 2025

Consorcio Abierto | Fixed-Term Contract

Senior Software Engineer

Worked on the maintenance, evolution, and continuous improvement of an ERP platform for condominium and property management, supporting both ConsorcioAbierto and Properix (Colombia). Participated in the development of new features, bug fixing, performance optimization, and implementation of scalable solutions for administrative, financial, and operational processes. Collaborated with cross-functional teams in agile environments, contributing to technical decisions, API integrations, code quality, and best development practices.

Technologies: Laravel, Symfony, Vue 3, PHP, JavaScript, REST APIs, Git.

Previous Experience

Senior Frontend Developer Oct 2024 - Jun 2025

Santander | Fixed-Term Contract

Full stack Developer Nov 2022 - May 2023

Neuralsoft | Full-time

Full stack Developer Jul 2022 - Sep 2023

Kretz | Full-time

Full stack Developer Jul 2021 - Jul 2022

Waia | Full-time
